

Glaive

The 28th Unlockable Heavy Weapon ---- Price - \$35,460 Damage Dealt - 51 Slash Cooldown - 1.8 Seconds ---- DPS - 28.33 Walk Speed Multiplier - 1 ---- Trivia: - Previously, Glaive and Dragon Slayer were the only weapons that could down a player in 2 swings without the need to Glory kill, with Glaive previously having 52 damage. • This has since changed, due to the damage not being enough to kill a person in a reasonable amount of time before their health has healed enough to sustain another hit
