Old maps no longer in Combat Warriors

- Mortem Insula
- Outpost Island

Mortem Insula

Mortem Insula was one of three maps to remain in circulation before the release of River of Sin (clarify please).

Trivia

- There was a chair in the middle of the intersection that would explode a player if they were to touch it, killing them.
- There was a treehouse in the corner of the map, allowing ranged users to steal kills

Outpost Island
