

# Player Stats

The Player Stats show your KDR (Kill Death Ratio) and score (your score throughout the kills you've gotten) It also shows how many kills you have earned. + how many times you died (counting resets) if you click on "More XP" in the middle of the Player Stat panel, it shows how many xp you have gained. your level also shows up with a brief description on your level/XP/ How much XP you need to get a new level,
